

I want to protest Sinclair Broadcasting's dplan to force their stations to air an anti-Kerry film just two weeks before the election.

There is no question this is designed to influence the outcome using airwaves that the public provides to them without cost.

The airwaves belong to the public not Sinclair Broadcasting. They are charged BY LAW to use them to serve the public interest. Sinclair is clearly flaunting the law.

There is just too much media consolidation. Sinclair is a perfect example of the problem. One corporation with 60 or 70 outlets can get their political voice heard on public airwaves. The public that OWNS the airwaves cannot.

Sincerely,
Eric Jorgensen
